

Optimizing the Standard in Postpartum Hemorrhage Prevention

8 NOVEMBER 2021, MONDAY 19:00PM – 20:00PM (SGT)

<https://bit.ly/3AutoDG>

Postpartum Hemorrhage (PPH) is a leading cause of maternal mortality, morbidity and long-term disability worldwide. The increasing rate in the incidence of PPH is a growing public concern with substantial variation across regions. Effective interventions to prevent and treat PPH exist and can largely reduce the burden of this life-threatening condition.

Join our scientific faculty:

Prof Sabaratnam Arulkumaran and Dr Mathur Deepak

Understand the critical need to address and manage Postpartum Hemorrhage from both the Obstetrician and Anaesthetist points of view

Gain insights on the advantages of Carbetocin RTS particularly in settings where quality of uterotonic options may be compromised

Evaluate the Cost Effectiveness and Guidelines in the value of PPH Prevention

TIME

SPEAKER/TOPIC

19:00-19:05	Opening Address
	<i>Prof. Arijit Biswas</i> Senior Consultant Division of Maternal Fetal Medicine, Department of O&G National University Hospital
19:05-19:30	Postpartum Haemorrhage Prevention for Safe Birth
	<i>Prof. Sabaratnam Arulkumaran</i> Professor Emeritus of O&G St. George's University of London
19:30-19:50	Anaesthesia Management in Intrapartum Care and Postpartum Haemorrhage
	<i>Dr. Mathur Deepak</i> Deputy Head and Senior Consultant Women's Anaesthesia KK Women's and Children's Hospital
19:50-20:00	Panelists Discussion and Closing Remarks <i>Moderator: Prof. Arijit Biswas</i>

Sir Sabaratnam Arulkumaran
PhD DSc FRCS FRCOG

Dr Deepak Mathur
MD, FCARCSI, LLM

Prof Arijit Biswas
MBBS, MD, FRCOG, FAMS
