BIOS OF SPEAKERS

Prof. Dr. Luc Van Gaal

Professor of Medicine, Department of Endocrinology, Diabetology and Metabolism, Antwerp University Hospital, Antwerp, Belgium

Luc Van Gaal studied medicine at the University of Antwerp, where he graduated in 1978. He obtained a specialist degree in internal medicine and afterwards in endocrinology and metabolism in 1983. Since then, he has become responsible for the Metabolic Unit at the Antwerp University Hospital. In 1992 he became Professor of Medicine at Antwerp University and head of the department. He is currently -as an emeritus professor-honorary consultant at the department of Endocrinology, Diabetology and Metabolism of the University Hospital. Professor Van Gaal's main clinical and research interests are related to obesity, type 2 diabetes and lipid metabolism. He is a member of many scientific, national and international societies and a member of the Editorial Board of a series of scientific journals. He is a founding member of the Belgian Association for the Study of Obesity (BASO) and Past-President of the Belgian Endocrine Society and the Belgian Diabetes Association. He is also a founding member of the International (IASO) SCOPE programme. In 2000, he was the co-President of the 10th European Congress on Obesity, organized in Antwerp in May 2000. He participated to and/or featured as (country) coordinator or principal investigator a number of clinical (outcome) trials in the field of obesity and diabetes. He is also involved in a number of EU consortia for metabolic diseases, NAFLD and NASH in particular. He has published more than 400 papers in international medical journals, mainly in the areas of general endocrinology, obesity, diabetes, NAFLD and lipids and has contributed to a number of textbooks about obesity.

Dr Tan Eng Loy
